

RV Plan Approval Packages

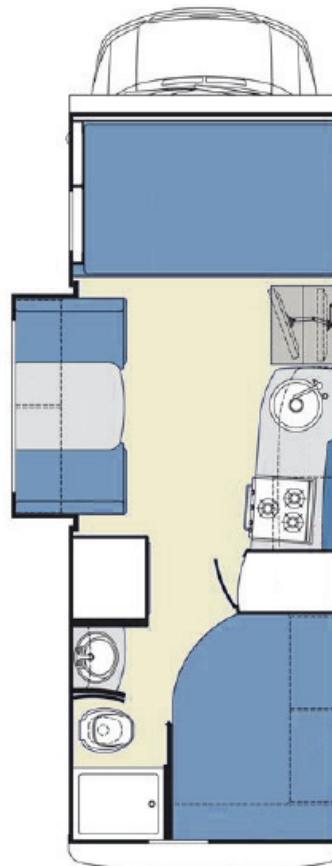

Customized for your needs by NTA

As a manufacturer of Recreational Vehicles, you know that certain states (and Canada) require state review and approval of RV plans. This approval process and model tracking can be confusing because it involves time consuming paperwork that is unique to each jurisdiction.

Do you have trouble keeping track of RV code changes? What about renewal dates, and all the required paperwork? NTA has an automated tracking system that notifies us when a plan is going to expire - in plenty of time for re-submission. This ensures no plan will get overlooked. This simplifies the submittal process for you, giving you more time to focus on your product!

To find out more about our RV Plan Approval Packages, contact us at NTA, Inc.
Office: 574.773.7975
or visit:
www.ntainc.com

As a member of the NFPA, NTA stays up-to-date on code changes, and since we know how each state works, we can create a submittal plan tailored specifically to your needs. We can also work with your current listing agency to provide submittal packages to Canada!

Complete Plan Approval

NTA provides everything you need, and handles your paperwork! A complete, custom submittal package includes:

- Official cover page
- Plumbing plans
- Floor plans
- Electrical plans
- Gas line layouts
- 12V calculations
